Subject: Griffin Residuals Road Access / Road Alignment

Tid,

I spoke with the Town manager regarding to the roadway easement and the adjacent Town property. Once you have your preliminary layout we will need to schedule a meeting with Juliet to discuss the access issues and the road interconnections. As you look at your entrance off Gildersleeve, we will need you to look at an option that uses the existing road easement in its current alignment as well as any other alternatives that you would like us to consider with a recommendation for your preferred entrance alignment. Based on the alternatives and your preferred alignment can be discussed and the Town could use one of the following options to assist in your entrance:

1. Adjust the Road ROW to match your preferred alignment
2. Provide an easement over the Town property
3. Provide a long term lease agreement for access through the Town property

Thanks,

Tony
